1400 Series Cable Caps

1420V
2" Cable Cap With Air Valve

1405V
.5" Cable Cap With Air Valve

1430
3" Cable Cap Without Air Valve

Application

These neoprene or TPR caps seal off open cable ends. Caps with air valves retain a nominal air pressure of five to fifteen pounds. The adjustable stainless steel band clamps enable caps to be used effectively on cable .250 inches (6.35mm) to .500 inches (12.70mm) smaller than the cap's inside diameter. All caps are 4.0 inches (101.60mm) long.
